COMMENTS

A true four-bedroom, two-bath home in one of the best-kept neighborhoods in North Cape May. It's a short bike ride to enjoy the sunsets, hop on the ferry, or visit Wawa. This home sits on a 62x100 lot with a brand-new 6' vinyl-fenced backyard. The exterior features vinyl siding, Andersen windows installed in 2021, solar panels and a roof installed in 2016, a sizeable front porch with composite decking, and security cameras on all corners. The interior is open and spacious, with luxury vinyl plank (LVP) flooring throughout. The upper level includes three bedrooms and one bathroom, while the lower level has one bedroom and one bathroom, which was remodeled this past year. The garage is currently set up as a game room but can easily be converted back into a garage. The home has natural gas heating and central air conditioning, with the HVAC system replaced six years ago. A solar system, installed in 2016, has a monthly electric lease of \$119.52. With all major components and systems upgraded or replaced in recent years, this home is practically move-in ready, needing only personal touches.
