COMMENTS

Charming 4 bedroom 3 bath 3 level home built in the early 1900's. One house off the beach this home still maintains some of the original architectural designs from its construction. The house has a full size dining room as well as an eat in kitchen. The lot is 110 feet deep providing a bigger than normal back yard. The front porch and back deck provide pleasant outdoor living. In addition to being a stones throw from the beach it is also in close proximity to many restaurants on Landis Avenue. Rental income on the property has been steady and strong. A good fit for the right buyer.
