This open area flows nicely to the rear deck with fenced in back yard, and also to the additional family room with tiled bar, countertop seating, and additional lounging area. Both living spaces offer a gas fireplace. The main level of the home offers an abundantly spacious primary bedroom with private en-suite and walk in closet. Two additional bedrooms are also on the east wing of the home which share an updated bath. Make your way upstairs from the bonus family room, you will find an additional space (bedroom) which is outfitted for a private mother-in-law suite with updated bath and walk in closet. This area offers its own exterior rear access. This home has seen many updates in recent years including a roof, ductless AC, tankless water heater, some windows, and much more.
