**COMMENTS**

This is a spacious Court House stunner with a completely renovated interior and more space than you know what to do with. This 2400sq ft 6 bed 3 full bath house feels larger than it is due to the layout. It was taken down to the studs and beautifully brought back to life with several features to boast about. The 1st full bath is located on the 1st floor, just off the kitchen and next to one of the 2 downstairs bedrooms. A reverse osmosis deionization (RODI) drinking water filtration system supplies the main sink with a devoted drinking tap, in addition to feeding the refrigerator water supply for its ice/cooled drinking water. The kitchen is equipped with updated appliances, an oversized cascading quartz-topped kitchen island with excessive cabinet storage throughout, and a wet sink/garbage disposal to back up the main sink. The upstairs features the remaining 4 bedrooms including the large owner's bedroom with a modern ensuite full bath with floating vanity and marble tile. Other notable features are the new roof (2023), AZEK Fascia, seamless gutters, 2 car garage w/ new garage door motor, 4-year-old AC condenser & handler, and a natural gas tankless hot water heater. The entire home is heated by means of a natural gas boiler that is quiet and will not dry out the air and affect relative humidity. Take note of the custom pinewood radiator shrouds throughout as the prior owner spared no expense in craftsmanship to make this home exquisite. Schedule showings through ShowingTime.
