James Hardie

Cedar and a few other hardwoods are a high quality and durable wood choice. They provide the look of cedar shingles without the risk of cedar rotting. An advanced technology, also known as cedar shake, is a synthetic material that looks like cedar but is made of a composite of wood and plastic. It is designed to last for decades, looking as natural as the real thing and without the risk of rotting.

James Hardie is a well-known cement board siding product that enhances and protects homes in all kinds of climate with strength, beauty, and durability. James Hardie siding's strength and durability provide peace of mind in hurricane force winds, rotting, cracking, splitting, beetle bore, and mold.
