Welcome to this 1930's Beach Cottage. This quaint but spacious 1783 square foot beach house has been brought up to date to have the modern conveniences of everyday living without taking away the beachy cottage charm. The current owners have made it their own over the years but left enough for new owners to put their stamp on it too. This home consists of 3 bedrooms and 1 bath on the first floor but there are steps that go up to a floored attics that could become 2 additional bedrooms or one large master suite with a vent stack and hot and cold pipes for another bathroom already in place. There is a detached garage large enough for one car and entertainment area that has double doors that lead out to a flag stone patio. A must see!!
