BUILDERS AND INVESTORS! The value is in the land! The house is a complete tear down and there is no access to view the interior of the property. However, this is a double size lot that can be subdivided and divided into two parcels. This has been confirmed with the building department. No variance needed, just have to get a survey from an engineer and you will be able to build two homes. The property is located on a quiet street and directly across for a church. If you are a builder or investor, this would be a good buy. Call for more details.
